Examination Regulations, Assessment and Grading

Art Education program during the prescribed methods used to measure whether the program achieved learning outcomes are listed below. course units, including the definition of an output section of the course final grade is shown along with its contribution to

- Midterm
- Final Exam
- Make-up Exam
- Homework Assessment
- Thesis Presentation
- Document Presentation

Examinations:

Students in Art Education program curriculum prescribed learning outcomes of the course unit each how much they are successful in obtaining, at the end of each semester and final exams for the period measured events.

Assessment of in-term activities includes a minimum number of a mid-term examination, a homework and a short-exam (quiz) as compulsory assessment methods for all the course units within all degree programmes defined by the Regulations. The programmes are encouraged to define more assessment methods for the in-term activities depending on their needs for measuring the achievements of the outcomes at the programme and course unit levels in order to ensure the educational aims and objectives. The nature and number of the assessment methods used for each course unit together with their contribution the final grades are given under the title of "Assessment and Grading" in the sections of course descriptions. These arrangements are announced in advance, at the beginning of each semester and published in the sections of the course descriptions on this web site.

Mid-term and final examinations are conducted in dates, places and times determined and announced by the University. The students' final semester grade is given by their instructors based on mid-term examination, homework evaluation, short-examinations, final examination and, if there is any, other assessment results taking into account the students' compliance with attendance to the course activities.

The contribution of assessment grades of the in-term activities to the final grade could be at most 40% and that of the final exam cannot be less than 40 % and higher than 60% for all for all the course units within all degree programmes defined by the Regulations.

Course units, which do not require a mid-term, homework, short-exam and/or a final exam, such as work placement, are determined by the administration of the related departments and specific assessment and grading methods for these courses are also announced through the same channels described above. Evaluation of such activities is made through the procedures defined by the Senate and assessed by Pass (P) or Fail (F) grades.

Grading:

The success of a student for each assessment (in-term and final) defined for each course unit is evaluated by the instructor. Evaluations are made over a scale of 100 points and converted to the letter grades at the end of the semester taking into account the standard deviation of grades and grade point average of the class and using the relative evaluation method, principles of which have been set by the Senate.

Graduation Requirements:

Arts and Crafts Teacher program in order to graduate a student must meet the following requirements: passing grade by taking complete 120 ECTS credits (54 ECTS credits in order to graduate course 7, 6 ECTS credits for Seminar Course, 30 ECTS credits, and art for two Special Scientific for 2 consecutive semesters with 60 ECTS credits for thesis work)
