Exam Regulations, Evaluation and Grading System

The methods used to measure whether the predicted program learning outcomes have been achieved during the Guidance and Psychological Counseling program are listed below. The outputs related to the course units are shown together with the contribution to the final grades in the section where the course description is included.

•Midterm

•Final exam

Make-up Exam

•Quiz

Homework Evaluation

• Report Submission

•Making Presentations with a Computer

•Preparing the Term Project and Presenting it Successfully

• Document Submission

Midterm and final exams are held on the dates, places and times determined and announced by the university. The final grades of the students are given by the instructors, taking into account that the students meet the attendance requirement based on the midterm exam, homework evaluation, quizzes, final exam and, if any, other assessment results.

In determining the final grade, the contribution of the activities during the semester is 40% and the contribution of the final exam is 60% for all courses in all undergraduate programs determined by the regulation.

Evaluation:

A student's success is evaluated by the instructor for each assessment (term studies and final) defined for each course. The assessment is based on 100 full points.

A student who receives AA, BA, BB, CB, S and EX grades from a course is deemed to have succeeded in that course. Success status of students; The semester's academic average and general academic averages are determined by calculating over 4.00 and announced at the end of each semester. The product of the credit of a course and the coefficient of the success grade obtained from that course gives the weighted score of that course. The semester academic average is found by dividing the total of the weighted points of the courses in the course plan that must be taken in that semester by the total credits of the courses. Annual courses are included in the spring semester academic average. The general academic average is found by dividing the total of weighted points to be calculated based on the success grades obtained from all the courses that the student has to take during the education period, by the total credits of the courses taken (60 ECTS). Course success grades and coefficients are determined as follows:

Success Grades (with letters) Coefficients

AA 4.00

BA 3.50

BB 3.00

CB 2.50

CC 2.00

DC 1.50

DD 1.00

FD 0.50

FF 0.00

Other Notes:

S (Successful): Successful in non-credit courses, U (Failed): Unsuccessful in non-credit courses,

P (Continuing): Successful at the end of the first semester in annual courses, EX (Exempt): Successful in the university exemption exam,

NI (Not Included): Grade of the courses not included in the weighted average,

NA (Attendance): Unsuccessful because he does not have the right to take the general exams, because he does not meet the requirements for attendance and / or practice,

T (Transfer): The grade received by the students transferred from other departments or universities. It is not included in the CPA calculations. Transferred course grade TB: Successful in the only course with a 3.0 GPA. It is not included in GNO accounts.

For detailed information, visit the "Grade Evaluation" section.

Classification of Qualifications

A student with a GPA of 2.00-2.99 is considered a Successful Student, a student with a GPA of 3.00-3.49 is considered an Honor Student, and a student with a GPA of 3.50-4.00 is considered a High Honor Student.
